REMARKS:

This three bedroom, three bath home sits on the edge of town on a very quiet dead end/circle drive street. Pulling up to this home you will notice updated vinyl siding, windows, door, seamless gutters, and shingles and a well landscaped front yard with a paver patio walk way to the deck. Inside the front door the living, dining and kitchen are all wide open with beautiful oak floors and an open staircase to the basement. The kitchen has a breakfast bar, custom oak cabinets, and newer appliances, including a trash compactor. Just past the kitchen is a laundry room and entry way to the attached garage. On the back side of the home are the three bedrooms with oak floors and two baths. The master has a private bath and patio door to the sun room which includes a hot tub that will stay with the home! The lower level has a big family room with pool table and a corn pellet stove, an office area, large storage room and a bathroom. The 24x50 garage is insulated and sheet rocked with in-floor heat, AC, two floor drains and sink. The garage also has access to the sun room. There is also a 10x10 shed that will be included in the sale. This is a must see!
